

*An attractive wide span shelving system that is flush fronted meaning there are no holes visible in the front. This makes it particularly attractive and safe for a retail environment. This is an 'add-on' bay system which means it is particularly good value when you require more than one bay of shelving.*

- Flush, smooth frames with no holes
- Levels adjust every 50mm
- Simple boltless assembly
- Order as separate end frames and levels
- Levels available as Heavy Duty or Extra Heavy Duty
- Footplates and top caps

Choice of widths

Optional galvanized decking - Just add 50% to heavy duty price (heavy duty loads apply)

Complete with footplates

Beams slot easily into place
